1. ABOUT JAIN (DEEMED-TO-BE UNIVERSITY)

Established in 1990, JAIN (Deemed-to-be University), Bengaluru, was declared Deemed-to-be University u/s of the UGC Act 1956 by the Ministry of Human Resource Development, Government of India in July 2009. Based in Bengaluru - The Silicon Valley of India, JAIN (Deemed-to-be University) is ranked among the top universities in India and is considered a cerebral destination for students worldwide and from India.

The University offers a conducive environment for learning, both in academics and extracurricular activities. Known for its emphasis on education, entrepreneurship, research and sports, JAIN (Deemed-to-be University) has some of the best minds in education and research fields, and centres that inspire entrepreneurship and ground-breaking innovations to simplify and manage life better. JAIN (Deemed-to-be University) distinguishes itself via its outlook on life, values, and principles. Its ever-evolving and open-minded system and quest for continued success and resilience, have made it one of the top universities in India.

The University has been accredited with an A++ grade attaining a cumulative grade point of 3.71 in the year 2021 by the National Assessment and Accreditation Council (NAAC). It has secured 68th nationwide rank in the National Institutional Ranking Framework (NIRF), Government of India, in 2023. Ranked 5th among the top private universities in India by the India Today magazine, the University is also an ISO 21000:2018 certified for quality management by TUV Nord.

With an unwavering commitment to academic excellence, the university fosters an environment that encourages innovation, creativity, and critical thinking. It plays a vital role in shaping a brighter future for both individuals and society as a whole.

2. VISION AND MISSION OF JAIN (DEEMED-TO-BE UNIVERSITY)

Our Vision

- To foster human development through excellence in Quality Education, Research, and Entrepreneurial Development.

Our Mission

- To provide quality education, creating human assets / manpower and intellectual capital.
- To enhance research and development in different disciplines.
- To develop new generation entrepreneurs who will be instrumental in fueling economic growth.
- To create able Leaders, Managers, and Technocrats.
- To foster an ethical environment founded on human values in which both spirit and skill will thrive to enrich the quality of life.

3. LIST OF PRINCIPAL OFFICERS

Officers of the University:

Dr. Chenraj Roychand	Chancellor and Founder-Chairman, JAIN Group
Professor (Dr.) Raj Singh	Vice Chancellor
Dr. Dinesh Nilkant	Pro Vice-Chancellor
Dr. J. Letha	Pro Vice Chancellor
Dr. Jitendra Kumar Mishra	Registrar

Other Senior Officers:

Shri. Ravindra Bhandari	Vice President
Mr. M.S. Santhosh	Joint Registrar
Ms. Aparna Prasad	Director, Communications

Human Resources and Student Fee Services:

Mr. M.S. Parswanath	Director - Projects and Facilities
Dr. Shradha Kanwar	Chief Academic Officer
Dr. S. Kiran	Deputy Dean- Academics
Dr. Asha Rajiv	Director- Internal Quality Assurance Cell
Dr. Rajani Jairam	Dean- Student Affairs
Prof. N.S. Manjunath	Controller of Examinations

4. PLEDGE

I OWN MY DESTINY

I will be a committed learner and take ownership of my learning journey and future.

I am talented and will dedicate time and effort to serving society and my country.

I will focus and commit to continuous learning, expanding my horizons, and adapting to the changing world.

I will nurture my inner innovator, seeking creative solutions to problems.

I will foster teamwork, valuing diverse perspectives and learning from my peers.

I will explore the power of networking and turn ideas into action, becoming a responsible and innovative entrepreneur.

I will dream because I am part of something bigger and will strive to make a positive impact on society.

I will be self-disciplined and will lead a life that is simple and successful.

I will be the change I wish to see in the world, leading with courage and compassion.

5. ABOUT THE FACULTY OF ENGINEERING AND TECHNOLOGY

With a proud history spanning over a decade, JAIN (Deemed-to-be University), Faculty of Engineering & Technology (JU-FET) has emerged as one of the finest and highly renowned engineering institutes in Bengaluru. JU-FET offers undergraduate (B.Tech), postgraduate (M.Tech) and many specialized programs. JU-FET is intently focused on delivering the world-class educational experience to its students. The outstanding teaching and research facilities coupled with practical and forward-thinking approach will provide a distinctive and high-quality academic experience focused on developing the skills and knowledge of the students, thereby allowing a smooth transition for them from the academic setup to the portals of the industry.

Being one of the best engineering institutes in Bengaluru, JU-FET has recognized that education can even go beyond the boundaries. Remarkable facilities and diverse co-curricular activities serve these educational purposes. The well-maintained campus provides a sense of persistent vision, stability, and management. Besides classroom training, JU-FET emphasizes on intensive interactions between students and mentors and provides excellent facilities such as technology-enabled classrooms, seminar halls, auditoriums, libraries, and much more.

6. ABOUT SCHOOL OF COMPUTER SCIENCE AND ENGINEERING

The School of Computer Science and Engineering is committed to providing a dynamic and innovative learning environment that fosters continuous learning and research to meet the challenges of the rapidly evolving global landscape. The school is constantly keeping pace with the latest technological advancements and industry trends to ensure that students receive the most cutting-edge and industry-relevant education possible. The faculty members of the school are highly qualified, experienced, and dedicated to providing quality education that is tuned to the needs of the industry. They possess a unique blend of academic and industry expertise that enables them to provide students with a well-rounded education that prepares them for the challenges of the real world.

The faculty members are actively involved in research and scholarly activities, regularly publishing their findings in peer-reviewed international/national journals and conferences. The school places a strong emphasis on practical and peer learning, projects, and research. Students are encouraged to develop multidimensional skill sets that cover all the required graduate attributes. They are introduced to global challenges and societal problems and are encouraged to take up projects in that direction. The students of the school have a high inclination towards entrepreneurship and research, and are well-prepared to enter the industry through placements. In addition to the academic curriculum, the school also encourages students to take part in co-curricular and extra-curricular activities. Overall, the school is dedicated to producing highly skilled and successful graduates who are ready to take on the challenges of the real world.

7. ABOUT THE DEPARTMENT VISION AND MISSION

The Department of Computer Science and Engineering is committed to providing a dynamic and innovative learning environment that fosters continuous learning and research to meet the challenges of the rapidly evolving global landscape. The department is constantly keeping pace with the latest technological advancements and industry trends to ensure that students receive the most cutting-edge and industry-relevant education possible.

The faculty members of the department are highly qualified, experienced, and dedicated to providing quality education that is tuned to the needs of the industry. They possess a unique blend of academic and industry expertise that enables them to provide students with a well-rounded education that prepares them for the challenges of the real world. The faculty members are actively involved in research and scholarly activities, regularly publishing their findings in peer-reviewed international/national journals and conferences.

The department places a strong emphasis on practical and peer learning, projects, and research. Students are encouraged to develop multidimensional skill sets that cover all the required graduate attributes. They are introduced to global challenges and societal problems and are encouraged to take up projects in that direction. The students of the department have a high inclination towards entrepreneurship and research, and are well-prepared to enter the industry through placements.

In addition to the academic curriculum, the department also encourages students to take part in co-curricular and extra-curricular activities. Overall, the department is dedicated to producing highly skilled and successful graduates who are ready to take on the challenges of the real world.

Our Vision

To emerge as a cutting-edge model center for education and research in the field of Computer Science and Engineering, and to foster knowledge acquisition, human development, entrepreneurship, and the exploration of emerging technologies.

Our Mission

- To impart the quality education in innovative technologies, teaching & learning ambience in Computer Science and Engineering.
- To establish a center of excellence in collaboration with industries, research laboratories and other agencies to meet the changing needs of society.
- To provide an environment conducive to develop innovation, team spirit and Entrepreneurship.
- To practice and promote high standards of professional ethics and transparency

Our Values

- Innovation and Research Excellence
- Quality Education & Community Engagement
- Industry Collaboration & Readiness
- Lifelong Learning
- Ethical Responsibility & Entrepreneurial Spirit
- Global and Societal Impact

"Science is a beautiful gift to humanity; we should not distort it."

DR. APJ ABDUL KALAM

9. ABOUT THE PROGRAM VISION AND MISSION, PEO, PO's AND PSO.

About the program

The B. Tech. in Computer Science and Engineering (Blockchain Technology) (CSE-BCT) at JAIN (Deemed-to-be University) one of the top Computer Science Engineering colleges in Bangalore integrates principles from computer science engineering and cyber security. It emphasizes the development of software components to create blockchain technology that is capable of reacting to enterprise development. The program offers students practical, hands-on experience in implementing solutions for Blockchain technology.

The CSE Department has received prestigious recognitions, including NAAC A++ Accreditation, UGC 12B, and NBA Accreditation. Our focus on research is evident through the numerous publications and patents generated by our faculty members. We are committed to continuous improvement in our teaching-learning processes, aligning the department's vision with the university's mission.

Industry Collaboration: The department maintains strong ties with industry leaders, facilitating guest lectures, workshops, and collaborative projects that enhance the practical knowledge and employability of students.

Innovative Curriculum: Our curriculum is regularly updated to incorporate the latest technological advancements and industry trends, ensuring that our graduates are well-prepared for the challenges of the modern IT landscape.

Research Initiatives: The department hosts various research initiatives and centres of excellence, providing students and faculty with ample opportunities to engage in ground-breaking research.

Entrepreneurial Support: We offer extensive support to budding entrepreneurs through incubation centres, mentorship programs, and start-up funding opportunities.

Student Achievements: Our students have consistently excelled in national and international competitions, hackathons, and conferences, showcasing their skills and bringing accolades to the department.

Community Engagement: The department is actively involved in community service and outreach programs, encouraging students to apply their knowledge for the betterment of society.

State-of-the-Art Infrastructure: The department is equipped with modern laboratories, advanced software tools, and high-speed internet connectivity, providing an ideal environment for learning and research.

Why to take this Programme?

Studying Blockchain Technology offers several compelling reasons:

- This course will provide students with a comprehensive understanding of blockchain technology, covering its mathematical, computational, and economic foundations. In addition to these technical aspects, students will explore the broader societal and legal implications of a decentralized currency system that relies on consensus among its users.
- Learning the distributed ledger technology, blockchain is transforming the businesses into highly traceable and reliable. Blockchain technology advancements merged with Web3.0 and smart contracts bring more career opportunities in both industry and research.
- Studying BCT expertise set the students apart in the competitive job markets. They could specialize in the blockchain development, security and consulting. Blockchain applications in the various industry protect the data and transactions and make the society in a secure way.
- Comprehensive Education: BCT equips individuals to address intricate, multidisciplinary issues, foster creativity, and have a positive impact on society.

PROGRAMME HIGHLIGHTS

Some highlights of the Computer Science Engineering (Blockchain Technology) programme include:

- Interdisciplinary Curriculum
- Real-world Applications
- Distributed decentralized applications.
- Enterprise blockchain applications like hyper ledger
- Ethereum and Corda framework creation.
- Smart contracts development.
- Crypto currency secure transactions
- Ethical and Societal Implications

Students can participate in research endeavours or real-world implementations connected to Blockchain Technology. Get involved in university research projects, internships, or partnerships with industry to acquire practical experience in creating, building, and executing blockchain, smart contracts and crypto currency. Cultivate soft skills, including problem-solving, communication, teamwork, and adaptability and participate in conferences, meetups, and workshops to network with industry experts.

PROGRAM EDUCATIONAL OBJECTIVES (PEOS)

PEO1: Graduates will demonstrate the ability to design, develop, and deploy blockchain-based applications effectively, meeting industry standards and addressing real-world challenges.

PEO2: Graduates will possess strong analytical and problem-solving skills, enabling them to innovate and devise novel solutions for complex issues in blockchain technology and its applications.

PEO3: Graduates will emerge as leaders capable of integrating blockchain technology into various domains and industries, leveraging its potential to enhance security, transparency, and efficiency in diverse contexts.

PEO4: Graduates will excel in communication and collaboration, fostering productive teamwork and effectively conveying technical concepts related to blockchain to both technical and non-technical stakeholders.

PEO5: Graduates will be equipped with the expertise and skills necessary to excel in the rapidly evolving field of blockchain technology, contributing to advancements in industry, research, and innovation

PROGRAM OUTCOMES (PO'S)

At the end of the program, students will be able to:

PO1- Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2- Problem Analysis: Identify, formulate, review research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences

PO3- Design/Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4- Conduct Investigations of Complex Problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5- Modern Tool Usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

PO6- The Engineer and Society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues, and the consequent responsibilities relevant to the professional engineering practice.

PO7- Environment and Sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8- Individual and Team Work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO9- Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO10–Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11- Project Management and Finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12 - Life-Long Learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

PROGRAM SPECIFIC OUTCOMES (PSOS)

PSO1: Design and develop network, web-based, cloud-based computational systems

PSO2: Design efficient algorithms, understand software practices, and implement code with Optimization

PSO3: Graduates will possess the skills to develop and deploy blockchain applications, utilizing smart contracts and distributed ledger technology proficiently.

PSO4: Graduates will demonstrate proficiency in analyzing blockchain systems to identify vulnerabilities and propose enhancements for improved performance and security.

10. DURATION OF THE PROGRAM(S)

For Under Graduate B.Tech:

- All Bachelor of Technology (B.Tech) programs at the undergraduate level are designed for a duration of 4 years, comprising 8 semesters. For students admitted under lateral entry, the program duration is 3 years, comprising 6 semesters.

Course Completion Requirements:

- Students admitted to the 1st year B.Tech program must complete the course within a period of six academic years from the date of first admission. Failure to do so will result in discontinuation of the course.
- Students admitted under the lateral entry scheme (2nd Year B.Tech) must complete the course within a period of six academic years from the date of first admission. Failure to do so will result in discontinuation of the course.

Minimum Credit Requirement:

- The minimum credit requirement for a B.Tech degree is 160 credits and above as prescribed in the course matrix.

11. PEDAGOGY OF THE PROGRAM

The pedagogy of the Bachelor of Technology (B. Tech) program at JAIN (Deemed-to-be University), Global Campus, is designed to foster an immersive and dynamic learning experience that combines theoretical knowledge with practical application. The program employs a mix of interactive lectures, hands-on lab sessions, industry projects, and internships to ensure students gain real-world experience. Collaborations with industry leaders provide students with exposure to current technologies and practices, while research-driven learning encourages innovation and critical thinking. The faculties employ modern teaching methodologies, including flipped classrooms, peer learning, and collaborative projects, to enhance student engagement and understanding. Emphasizing ethical responsibility and societal impact, the pedagogy integrates multidisciplinary skill development, entrepreneurship, and participation in co-curricular activities, preparing students to be competent, innovative, and socially responsible engineers.

Innovative teaching pedagogies encompass creative and effective approaches that transcend traditional educational methods, aiming to deeply engage students, stimulate critical thinking, and foster a comprehensive understanding of the subject matter. The Max Delivery model is a prime example, incorporating a range of innovative pedagogies designed to enhance the learning experience. This model integrates several advanced teaching methods, including:

- **Collaborative Learning**: Encourages students to work together in groups, promoting teamwork, communication, and the sharing of diverse perspectives.
- **Case Studies**: Utilizes real-world scenarios to help students apply theoretical knowledge to practical situations, enhancing their problem-solving and analytical skills.
- **Role Plays and Simulations**: Provides experiential learning opportunities where students can immerse themselves in realistic roles and scenarios, facilitating a deeper understanding of the content through active participation.
- **Transdisciplinary Project-Centric Learning**: Focuses on projects as the core of the learning experience, enabling students to work on practical tasks that mirror real-world challenges, thus reinforcing their technical and managerial skills.

- **Experiential Learning:** Involves learning through experience and reflection, encouraging students to engage directly with the material and draw insights from their experiences.
- **Blended Learning**: Combines traditional face-to-face instruction with online learning, offering a flexible and comprehensive approach that caters to different learning styles and needs.
- **Coursera Courses**: Integrates high-quality online courses from Coursera into the curriculum, providing access to a wide range of expert-led courses and specializations in Computer science and engineering. This allows students to learn at their own pace and gain insights from global industry leaders and academic professionals.
- **Mentoring Courses:** Implements structured mentoring programs where experienced professionals and educators guide students through their learning journey. These mentors provide personalized support, career advice, and insights into the industry, helping students to bridge the gap between academic knowledge and practical application.

By integrating these innovative teaching strategies, the programme creates a dynamic and engaging learning environment. These approaches not only promote active participation and critical thinking but also ensure that students develop a deep and nuanced understanding of Computer science and engineering. Educators can tailor and adapt these pedagogies to align with their specific teaching objectives, student requirements, and the resources at their disposal, thereby enhancing the overall educational experience.

12. Course Matrix:

The Choice Based Credit System (CBCS) comprises of courses such as Basic Science, Engineering Science, Humanity and Social Science, Department Core Courses, Open Electives, Skill Enhancement Courses, Internship / Projects, Department Specific Electives, and Mandatory Courses

- Basic Science: Provides foundational knowledge in mathematics, physics, and chemistry essential Basic Science: for understanding engineering principles.
- Engineering Science: Introduces core engineering concepts and methodologies applicable across various engineering disciplines.
- Humanity and Social Science: Explores the impact of technology on society and human behaviour, enhancing ethical and cultural understanding.
- Department Core Course: Covers fundamental and advanced topics in Computer science and engineering, forming the backbone of the curriculum.
- Department Specific Electives: Offers specialized courses within the department to deepen expertise in particular areas of Computer science and engineering.
- Open Electives: Allows students to explore diverse subjects outside their core discipline to broaden their knowledge and skills.
- Skill Enhancement Course: Focuses on developing practical and professional skills necessary for a successful engineering career.
- Internship / Projects: Provides hands-on experience and real-world application of theoretical knowledge through industry internships and project work.
- Mandatory Course: Includes essential courses required for the completion of the degree, ensuring comprehensive coverage of critical topics

13.ASSESSMENT CRITERIA

ELIGIBILITY FOR EXAMINATION (ATTENDANCE)

- A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% in aggregate of the number of working periods in each of the subjects compulsorily.
- A student who fails to complete the course in the manner stated above shall not be permitted to take the semester end examination.

Evaluation

It is based on 100 marks, consisting of Continuous Assessment (CA) of 50% weightage and Semester End Examination (SEE) of 50% weightage.

Continuous Assessment- I to VII Semester (50 Marks)

Continuous assessment constitutes of 50 marks. The breakups of these 50 marks are as follows:

CA Components				
Test 1 & 2	Assignments	Activity/Experiential Learning	Technical Quiz/MCQs/Case-study	Presentation/Seminar / Demonstration
15 marks	10 marks	10 marks	10 Marks	5 Marks

Note: It is compulsory for students to maintain a minimum of 75% attendance in every subject; otherwise they are not eligible to take up the Internal Assessment exams.

End Semester Examination – (50 Marks)

The summative assessment constitutes of 50 marks conducted at the end of each semester as per the university notification.

Practical Course:

The practical lab oriented course (100 marks) constitutes of twelve experiments and each experiment evaluated per week for 100 marks as a continuous assessment, two tests per semester conducted for 100 marks each. The total 1400 marks will be reduced to 70%. The end semester exam conducted for 30%.

- **Credit:** A unit by which the course work is measured. One credit is equivalent to one hour of lecture or tutorial or two hours of practical work/ field work per week in a semester.

The candidate shall complete the course equivalent to minimum credit requirement as per regulations.

Course Type	BS	ES	HSS	Core	OE	SEC	MC	INT	DSE	Total Credits
Credits	**19**	**09**	**15**	**65**	**12**	**12**	**0**	**14**	**18**	**164**

- **Programme:** A programme leading to award of a degree, diploma or Certificate.
- **Grade Point:** It is a numerical weight allotted to each letter grade on a 10- point scale.
- **Eligibility to Pass:**

A student has to fulfill the following conditions to pass any academic programme of the University:

- A student who has earned a minimum number of credits prescribed for the concerned programme as per Curriculum Structure and Scheme of Evaluation.
- Continuous Assessment (CA) and End Semester University Examination (UE)
- The percentage weightage of CA to UE is 50:50 for theory courses and for field- based courses, projects and dissertations etc.
- A student is required to secure minimum 35% marks separately in SEE and 40% in aggregate in a course to secure pass grade.
- The internal assessment will be completed within the semester and the result will be forwarded to office of the COE within three days of the last class
- The students who are already qualified in CA during the semester but got Reappear (R) grade due to whatever reasons, may opt to retain the same score in CA at the time of applying for GSSC (Guided self-study course)

SGPA & CGPA:

The Semester Grade Point Average (SGPA) will be weighted average of credit points of all letter grades received by a student for all the course units in the semester.

The Cumulative Grade Point Average (CGPA) is the weighted average of all credit points of all letter grades received by a student for all the course units in the programme.

Grading System

	O	**A+**	**A**	**B+**	**B**	**C**	**P**	**R**
Qualitative Description	Outstanding	Excellent	Very Good	Good	Above average	Average	Pass	Reappear
Grade points	10	9	8	7	6	5	4	0
Marks %	The range of marks for each grade for a given course is determined by the statistical parameters of the relevant group in terms of marks obtained.						Lower limit of P is 40	<40

CGPA	≥9.0	≥8.0 & <9.0	≥6.5 &<8.0	≥5.0 & <6.5	≥4.0 & <5.0	<4.0
Class	Outstanding	Distinction	First Class	Second Class	Pass Class	Reappear

- The semester grade point average (SGPA) - is the sum of the product of the credits with the grade points scored in all subjects divided by the total credit of Part A and Part B in the semester.
- SGPA = ∑Credits x Grade Points / Total Credits Minimum SGPA for a pass is 4.
- If a student has not passed in a subject or is absent then the SGPA is not assigned.
- The cumulative grade point average (CGPA)- is the weighted average of all the subjects undergone by a student over all the six semesters of a course.
- CGPA = ∑ Total credits in the semester x SGPA / Total credits of the course. SGPA and CGPA will be rounded off to two decimal places.

The University follows a relative grading system for group size exceeding 30 or more.

Exit Options:

	Credits	Min. Credits Requirement	Exit options
Semester - I	21	42	Exit after 1st year (I & II Semesters) – The candidate will be awarded with UG Certificate with minimum 42 credits, on the successful completion of the First Year (Two Semesters)
Semester –II	21		
Semester –III	19	83	Exit after completing 2nd year (III & IV Semesters) – The candidate will be awarded UG Diploma Certificate with a minimum 83 (42+41) credits, on the successful completion of the Second Year (Four Semesters)
Semester –IV	22		
Semester –V	22	127	Exit after 3rd year (V & VI Semesters) – The candidate will be awarded with B.Sc (Engg.) with minimum 127 (42+41+44) credits on the successful completion of the Third Year (Six Semesters)
Semester –VI	22		
Semester –VII	21	163	Bachelor of Technology Degree in a Discipline at the successful completion of the Four Years (Eight Semesters)
Semester –VIII	15		

14.PLACEMENTS AND INTERNSHIP

TRAINING AND PLACEMENT DEPARTMENT

PLACEMENT POLICY

Rules And Regulation for Academic Year 2024-25

At JAIN (Deemed-to-be University), Campus Placements represent a significant opportunity for penultimate year students across diverse specializations. The Placement Office assumes the pivotal role of facilitator for placement-related activities, dedicated to fostering employment opportunities for our students. This involves actively engaging with potential recruiters and providing comprehensive support to students through structured training programs aimed at enhancing their employability. While the Placement Office diligently strives to initiate the careers of our students at JAIN (Deemed-to-be University), it is essential to recognize that placement outcomes are contingent upon various factors and are not guaranteed.

Minimum Eligibility Criteria for the Placements-

1. The minimum requirement for placements is that there are no current backlogs at the time of the recruitment process.
2. Compliance with any specified eligibility criteria set by individual recruiters or industries.
3. Submission of a well-crafted resume or CV to the respective program head.
4. Participation in mock interviews or other preparatory sessions.
5. Adherence to deadlines for application submission or registration.

1. General Guidelines, Eligibility & Registration Process for the Placement

1. Final year students graduating from the Institute by the end of the academic year 2023-24 and actively seeking employment must enroll for campus placements via the Super Set platform. Please note that placement registration is applicable for the current academic year only.
2. All eligible students must meet the minimum eligibility criteria outlined in the "Minimum Eligibility Criteria for Placement" section and additionally fulfill the criteria specified by the recruiting organization or company. It's important to note that these criteria may vary from company to company.

3. Before the start of the recruitment cycle, students aiming for further education either domestically or internationally, or pursuing alternative career paths, must formally communicate their intentions in writing to the Training and Placement Officer (TPO) and the Staff Placement Coordinator.
4. Students are required to participate in all Personality Development Training Programs organized by Jain University from their first year onwards. Additionally, students must maintain a minimum attendance of 85% for all placement-related training sessions conducted by the college.
5. Students are expected to adhere to the instructions provided by the Training and Placement Officer (TPO) and the Staff Placement Coordinator regarding their attendance at job fairs.
6. It is imperative for students to uphold a minimum academic attendance of 80% in all semesters leading up to the campus visit of a company.
7. Students are required to accurately upload their credentials and passport-sized photos, ensuring that there are no discrepancies regarding their grades and other relevant academic details in Superset.
8. Student registration will take place during April/May 204. Campus recruitment is exclusively intended for final year students.
9. At the beginning of each session, a supportive team is assembled, including a Faculty Chair, Faculty Advisor, and Placement Ambassador from each branch. This team is here to assist and guide you throughout your placement process.
10. Students are encouraged to stay informed by regularly checking announcements on Super Set, reading notices posted on notice boards, and reviewing information available on the company website. It's essential to follow the registration process diligently and ensure timely registration for recruitment drives as per the specified deadlines.
11. Students should craft their resumes under the guidance of faculty members or trainers from the Institute. Emphasize achievements, summer projects, internships, conferences, workshops, and any additional experiences beyond the curriculum that contribute to enhancing employability.
12. The primary point of contact for students regarding any issues concerning placements and training will be the Faculty Placement Coordinator.

13. Participation in all selection processes, whether on-campus or off-campus, is vital for students as it offers them exposure to diverse career opportunities, enhances their interviewing skills, and allows them to network with potential employers. Additionally, active involvement in these processes demonstrates students' commitment to their professional development and increases their chances of securing desirable job placements.
14. It is imperative that a registered student recognizes the significance of their commitment to the placement drive. Withdrawal from the process, while permissible, should be done judiciously, with prior intimation and approval from the placement coordinator. This emphasizes the importance of responsible decision-making and ensures that opportunities are maximized for both the student and potential employers. It is crucial to understand that exceeding the approved limit of two withdrawals can have serious consequences, including disqualification from participation in the entire campus placement period. Therefore, students must exercise diligence and accountability in managing their participation in the placement drive.
15. Selected or shortlisted students must continuously enhance their academic and professional skills until they join the company. This proactive approach is essential to prevent the cancellation or withdrawal of the offer in the event that they do not meet the eligibility criteria upon joining. Additionally, it is important to note that the notification of the onboarding process after graduation will be determined solely by the organization or company. Therefore, students should remain diligent and prepared for any further requirements or instructions from the hiring entity.
16. Selected students are required to honor the offer extended by the organization or company as a commitment to maintaining the enduring relationship between Jain (Deemed-to-be University), Bangalore, and these companies.
17. Students who secure placements through channels other than the Training and Placement Office (TPO) must notify the TPO for record-keeping purposes.
18. It's important to note that the placement of any student is not a guaranteed claim or right. The University is committed to providing an equitable and open platform to all eligible students, as per the guidelines of the University.

2. Pre-Placements Talks (PPT) and Job Description

1. Job descriptions provided by respective companies will be posted on Superset. Students are expected to arrive at the venue 15 minutes prior to the scheduled start of the Pre-placement Talks conducted by the company.
2. Attendance will be recorded, and only students who have attended the Pre-placement Talks will be permitted to proceed with the remaining recruitment process for the company.
3. During the Pre-placement Talks (PPT), students must address any queries or doubts regarding the package, job profile, work location, bond details, etc., directly with the HR officials of the company.
4. It is essential for students to familiarize themselves with the fundamental details of the company they are applying to. This includes referring to the company's website and acquiring basic information, as it can significantly aid in the HR interview.
5. Students should actively participate in the Pre-placement Talks (PPT) and take notes to gain insights into the company's culture, values, and expectations.
6. It's crucial for students to research the company thoroughly before attending the Pre-placement Talks (PPT), including understanding its products, services, competitors, and recent news or developments.
7. During the Pre-placement Talks (PPT), students should pay attention to the specific skills and qualities the company is seeking in potential candidates and tailor their responses accordingly during subsequent recruitment stages.
8. Students should dress professionally and maintain appropriate behavior during the Pre-placement Talks (PPT) as it reflects their professionalism and commitment to the recruitment process.
9. Following the Pre-placement Talks (PPT), students should review the job description provided by the company in detail and ensure that their qualifications and interests align with the role before proceeding with the recruitment process.
10. Students should utilize the opportunity during the Pre-placement Talks (PPT) to network with company representatives and ask insightful questions to demonstrate their genuine interest in the organization and the role.
11. It is recommended that students actively engage with the Pre-placement Talks (PPT) by asking relevant questions and seeking clarification on any aspects of the job description or company culture that may not be clear.

12. Students should use the Pre-placement Talks (PPT) as an opportunity to showcase their enthusiasm and eagerness to learn about potential career opportunities within the company.
13. Prior to the Pre-placement Talks (PPT), students should review their own career goals and aspirations to ensure alignment with the opportunities presented by the company.
14. During the Pre-placement Talks (PPT), students should take note of any key deadlines or requirements for the recruitment process and ensure timely adherence to them.
15. It is advisable for students to follow up with any additional questions or concerns that may arise after the Pre-placement Talks (PPT), demonstrating proactive communication and interest in the company.
16. Students should leverage the Pre-placement Talks (PPT) as a chance to gauge the company's commitment to employee growth and development, as well as its potential for long-term career advancement.
17. It is important for students to approach the Pre-placement Talks (PPT) with an open mind and willingness to explore various career opportunities, even if they may initially seem outside of their comfort zone or area of expertise.
18. Following the Pre-placement Talks (PPT), students should reflect on their learnings and insights gained from the session, considering how they can apply this knowledge to their future career endeavors.
19. Students should maintain professionalism and courtesy towards company representatives and fellow peers during the Pre-placement Talks (PPT), fostering a positive and respectful environment for all attendees.
20. Finally, students should use the Pre-placement Talks (PPT) as a valuable learning experience to enhance their understanding of the corporate world and refine their career aspirations accordingly.

3. Placement Process and Dress Code (on-campus or off-campus)

1. Students are accountable for regularly checking emails from Super Set. Important announcements, updated information, shortlisted names, and other details will be posted on the notice boards.
2. Students failing to meet the mandatory eligibility criteria specified by the company will be ineligible to participate in the placement process.
3. It is mandatory for students to be dressed in formal attire for every Recruitment Drive.

For Male Students:

- Formal attire consisting of a well-fitted shirt, in solid colors, paired with formal trousers.
- A blazer is mandatory for a polished appearance.
- Ties should be worn to complement the attire.
- Closed formal shoes, preferably in dark colors, should be worn and kept well-polished.
- Personal grooming should be neat and tidy, with minimal accessories.
- Minimal Accessories: Avoid excessive jewellery or accessories, keeping it minimal and professional.

For Female Students:

- Formal Blouse: A well-fitted, long-sleeved blouse or shirt in solid colors or subtle patterns.
- Formal Skirt or Trousers: Knee-length skirts or tailored trousers in neutral colors such as black, navy blue, or gray.
- Blazer: A tailored blazer in a coordinating color to the blouse or trousers for a polished appearance.
- Dress Shoes: Closed-toe, low to moderate heel shoes in black or brown, preferably leather.
- Minimal Jewellery: Opt for minimal and subtle jewelry such as stud earrings and a simple necklace or bracelet.
- Hair and Makeup: Hair should be neatly styled, and makeup should be natural and understated.
- Handbag: A small, professional-looking handbag in a neutral colour to carry essentials like a notepad and pen.

Both boys and girls should ensure that their clothing is clean, pressed, and free of wrinkles. Personal hygiene is also important, including clean nails and a neat appearance. By following these dress codes, students can make a positive impression during placement interviews.

4. Student's must carry a folder comprising of their

- Multiple copies of the Resume.
- Passport-size coloured photographs.
- Photocopy of the Certificates (10th, 12th, Graduation Mark sheets, and certificates, etc).
- College ID card.
- Certificates of any Courses completed or any Internship Certificates

- Govt ID & Address Proof (viz: Driving License, Passport, Pan card, Aadhar card, Voter ID, etc)

4. DISCIPLINE:

- Students must maintain a clean disciplinary record throughout their tenure at the university to be eligible for participation in the campus placement process. Any history of disciplinary action will result in disqualification.
- Punctuality is a fundamental aspect of professionalism. Students are expected to arrive on time for all placement tests and procedures.
- Professional conduct and discipline are paramount during the placement process. Any student found violating company protocols or tarnishing the Institute's reputation will face immediate placement debarment for the remainder of the academic year and potential disciplinary action by the institute.
- Integrity is non-negotiable. Any student caught cheating or engaging in misconduct during any phase of the selection process (PPT/Test/GD/Interview) will face immediate disqualification from placements for the remainder of the academic year.

5. Job Offers:

Each student is allowed to accept only one job offer from each category listed below. Limiting each student to accepting only one job offer from each category serves to promote fairness, maximize opportunities, maintain positive employer relationships, and ensure commitment to chosen career paths. By allowing each student equal opportunity to secure employment opportunities within each category, it prevents any single student from monopolizing multiple offers and ensures that all students have a chance to explore and select the best fit for their career goals. This practice also fosters positive relationships with employers by demonstrating respect for their recruitment efforts and helps to streamline the recruitment process for both employers and students. Additionally, it encourages students to make thoughtful and committed decisions about their future careers, preventing disruptions and ensuring a smoother transition into the workforce.

Super Dream Companies (Above 10.0 LPA): These organizations represent top-tier companies renowned for offering exceptional job prospects, lucrative salaries, and a favorable working environment. Super Dream companies typically have rigorous recruitment processes and are highly coveted by students.

Dream Companies (6.0 LPA – 9.99 LPA): Dream companies also belong to the top-tier category, offering attractive job opportunities and competitive salaries. While they may not be as prestigious as Super Dream companies, Dream companies still provide sought-after career prospects. The recruitment process for Dream companies is challenging but not as stringent as that of Super Dream companies.

Core Companies (Above 3.5 LPA): Core companies are medium-sized firms specializing in core engineering sectors such as manufacturing, infrastructure, and energy. They offer promising job prospects, albeit with salaries typically lower than those offered by Super Dream and Dream companies.

Mass Recruiters (4.0 LPA – 5.99 LPA): Mass recruiters are companies that hire a large number of candidates within a short period. Although they offer entry-level positions primarily in the IT and BPO sectors, their salary range tends to be lower compared to Super Dream, Dream, and Core companies.

6. Placement Training

Attendance at placement training sessions is mandatory for all students. Only those students who achieve an attendance rate of 80% or above after completing the training sessions will be permitted to participate in the placement process.

- After completing the training, students will undergo a Placement Eligibility Test. Based on their performance percentage as outlined below, students will be eligible to attend company interviews.
- A student with an offer from an IT services recruiter remains eligible to participate in interviews with domain-based, Mass Recruiters, Core Companies, Dream, or Super Dream companies, provided they meet the eligibility criteria. However, if selected by a Dream, or Super Dream recruiter, any previous offers will be automatically cancelled.
- Student selected in domain-based, Mass Recruiters, Core Companies, Dream, or Super Dream companies must give in writing his/her consent of joining the company. No

explanation/excuse/justification will be accepted for declining the offering later point in time. Selects will have to submit consent letter (of joining) to Joint Director-Placement in person.

- The student can have only one offer in hand based on the following order of preference.
    - Dream Recruiter-/ Super Dream Companies - All offers from Companies in the categories listed below (b, c) will stand cancelled.
    - Domain Companies - All offers from Companies in the categories listed below (c) will stand cancelled.
    - IT Services Recruiters – In case a student has no offer from any of the categories above, then the offer from IT Services Recruiter will remain valid.
- Students should appear for placement process as indicated below:
    - All (registered and yet-to-be-placed) students must appear for all companies that they are eligible for.
    - All students placed in IT Services Recruiter are also eligible for Domain based companies and registered as per their branches.
- Students specializing in core sectors are permitted to participate in campus drives conducted by core companies, regardless of any existing offers from Software/IT Companies, irrespective of their package.
- In the event that a student receives multiple offers due to delays in result announcements by companies, they are obligated to accept the job offer for which results were declared earlier. Additionally, if a student receives an internship offer, they are eligible to pursue full-time opportunities.
- Students who register for a drive but fail to attend three consecutive drives will be blocked from participating in further drives.
- Students who successfully clear the selection process conducted by the placement cell are eligible to undergo the internship program in August 2023. However, they must maintain their academic percentage and clear all subjects to qualify.
- Students receiving a Pre-Placement Offer (PPO) during their internship will have the offer considered as a full-time job. Upon acceptance of the offer from the client, the student will be blocked as per the policy.

7. Offer Letters:

- Offers from companies must be collected from the T&P Department/Company within the specified timings displayed on the notice board. It is the sole responsibility of the students to thoroughly review the offer letter and take necessary actions such as signing and returning it to the company. Failure to adhere to the guidelines set by the companies, resulting in the cancellation of the offer, will be the sole responsibility of the student.
- If students receive the offer letter directly from the company, they must submit a copy of the letter to the placement office without delay.

*** All the Best ***

INTERNSHIP POLICY:

Prelude: The objective of this policy is to deliver a synopsis of the internship policy at Jain (Deemed to be University)

Objective:

The intent of the policy pursued by the Faculty of Engineering and Technology is to acquire hands-on industrial or organizational exposure and incorporate the knowledge and skills attained through the coursework, and interact with professionals and other interns. The internship has to be significant and mutually beneficial to the intern and the organization. It is crucial that the objectives and the activities of the internship program are distinctly clarified and comprehended.

The following are the intended goals of internship training:

- Will expose Technical students to the industrial environment, which cannot be simulated in the classroom and hence creating competent professionals for the industry.
- Provide possible opportunities to learn, understand and sharpen the real-time technical/managerial skills required on the job.
- Exposure to the current technological developments relevant to the subject area of training.
- Experience gained from the 'Industrial Internship' in the classroom will be used in classroom discussions.
- Create conditions conducive to the quest for knowledge and itsapplicability on the job.

This will help the students to improve their presentation, writing, and communication skills. The internship will also act as a gateway for final placement for many students. The internships are unique opportunities for the students to receive pre-placemen to offers from reputed organizations in their chosen fields.

Facilitation:

The internship mode of intervention for skilling up the students has been facilitated through:

1. Earn While You Learn (Final Year)
2. Summer Internship Program (In the vacation after 6th sem).

An opportunity for Undergraduates in their 3rd and 4th year or final year of engineering students to work remotely while pursuing their education. There has always been a gap between what we learn in college and the skills needed to solve real-world problems and these internships bridge the gap by allowing students to apply what they learn, develop new skills and earn a stipend while still in college.

Benefits of EWYL

- The chance to work with industry experts across diversified domains which includes
- Cybersecurity, AI, Machine learning, Sales, and Marketing.
- Work with cutting-edge technologies to solve problems for top companies across the world.
- The practical experience that will take and make your classroom learning more meaningful.
- A peek into how start-ups function.
- Learn to effectively work in a Team and collaborate.
- The option to work remotely or on Company premises.
- The opportunity to join the Company after completing the internship.
- A generous monthly stipend of range 15k to 25k

Eligibility Criteria: All students of UG & PG Engineering are eligible for EWYL who have a keen interest in their domain-specific areas like ML, AI, Data Engineering, Cyber Security, Threat Research

1. SUMMER INTERNSHIP PROGRAM

Gaining industry experience has significant benefits whether you are in college or entering the workforce. Regardless of your current education level or desired career path, an internship can encourage your professional growth. Summer internships allow college students to get real-world work experience. These programs help students build their resumes and take the first step toward a successful career after graduation. However, students aren't the only ones who benefit from internship programs. Companies that offer these programs get a first look at new talent (i.e., interns) before they enter the workforce. Internship programs also benefit a company's culture and its bottom line. It's the kind of mutually beneficial relationship that makes for good business.

Summer internships are usually six to eight weeks long, and follow school semesters. Internships grant you exposure to the inner workings of your chosen industry. They let you behind the scenes, and get a taste of the specific knowledge and everyday practices that every job requires. You get the benefit of seeing trained professionals' complete tasks you might otherwise have only read about, and you'll get a chance to try tasks out yourself—the extent to which you do will depend on your field.

2. FINAL YEAR INTERNSHIP PROGRAM

The academic calendar is scheduled in such a way that the classes for the 8th semester will be conducted in the 7th-semester examination break and the students are allowed to take up the internship from the commencement of the eighth semester with the following conditions:

- Students have to complete university Academic requirements like Technical Seminars, Project viva voice, and Internship reviews by attending on Saturdays as per the Academic calendar
- Internship can be converted to full-time placement if the students abide by the university rules and regulations and also taking consent from the Department Heads and the Placement officer
- All the candidates who have completed the 7m semester examination are allowed to apply for the Internship
- As per the New Education Policy (NEP) and aligned coordination of our Academic Team, we have permitted a few of our students to undergo internshipfrom August onwards. The duration of the internship varies for B.Tech up to 9 months whereas for M.Tech up to 11 months
- Institute mentors nominated for the Internship batch have to monitor the work progress and discuss the same with the mentor nominated from the Industry once in 15 days.
- Any Publication resulting from the internship work must be published in the name of the organization as well as the Industry (Joint Publication).
- Candidates have to submit an Internship report as per the universityprescribed template duly signed by the company mentor

- Students can convert the Internship to project work with mutual consent from both the mentors (In statute and Industry) and in that case, the Credit allotted to the project will be considered.
- In addition, in every even semester vacation student are allowed to go for 3- 4 weeks of Internship which can be extended by one more week.
- Request Letter/ Email from the office of the Training & Placement cell of the college should go to industry to allot various slots of 4-6 weeks during summer vacation as internship periods for the students. Students' request letters/profiles/ interest areas may be submitted to industries for their willingness for providing the training
- Students on joining Training at the concerned Industry / Organization, submit the Joining Report/ Letters / Email.
- Students should submit training reports after completion of the internship.
- Training Certificate to be obtained from industry.
- Internship Report should be submitted by the students along with attendance record and an evaluation sheet duly signed and stamped by the industry to the Institute immediately after the completion of the training.
- List of students who have completed their internship successfully to be issued by the Placement and Training Department.

Benefits of Internship:

- Build industry-institute tie-ups.
- Makes the placement process easier.
- Improve institutional credibility & branding.
- Helps in the retention of the students.
- Curriculum revision can be made based on feedback from Industry/ students.
- Improvement in the teaching-learning process.

Headliners for Internship

The internships can be pursued through in-house internship programs hosted by the university and through external agencies. In-house internship opportunities shall be generated through MoUs

between University & Industry, Onsite opportunities in the Industry, and Remote Opportunities in the industry (IT industry). The Leads for the internship shall be generated through the MoUs for research, skilling programs through CoE of industries on Campus, and through the Training & Placement Office of the University. The training & Placement Office shall extensively utilize the leads from Campus hiring for generating internship opportunities for the students. This mode of intervention in the internship would intern help the T&P office of the university to pitch the skilled & experienced student profiles for better campus hiring opportunities. Further, the student themselves can pursue the summer internships through their own initiatives and leads to pursue internships in the area of their interest which would help them perform better in academics and career orientation.

The contention of interest/ Transgression:

The intern must demonstrate honesty, punctuality, and a willingness to learn during the internship program. The intern will obey the policies, rules, and regulations of the Company and comply with the Company's business practices and procedures. Any student found disregarding any of the norms would be liable for disciplinary action. Students must abide by the applicable policies and norms of the sponsoring organization during the period of internship.

CAREER PATH - JOB PROSPECTS / PROFILES FOR B.TECH GRADUATES:

At JAIN (Deemed-to-be University), Campus Placements represent a significant opportunity for penultimate year students across diverse specializations. The Placement Office assumes the pivotal role of facilitator for placement-related activities, dedicated to fostering employment opportunities for our students. This involves actively engaging with potential recruiters and providing comprehensive support to students through structured training programs aimed at enhancing their employability. While the Placement Officediligently strives to initiate the careers of our students at JAIN (Deemed-to-be University), it is essential to recognize that placement outcomes are contingent upon various factors and are not guaranteed.

Minimum Eligibility Criteria for the Placements

- The minimum requirement for placements is that there are no current backlogs at the time of the recruitment process.
- Compliance with any specified eligibility criteria set by individual recruiters or industries.
- Submission of a well-crafted resume or CV to the respective program head.
- Participation in mock interviews or other preparatory sessions.

- Adherence to deadlines for application submission or registration.

Co-curricular Activities:

JAIN (Deemed-to-be University) provides a multitude of co-curricular activities to enrich student's lives beyond academics. Becoming involved in some of the clubs and associations can be a great way to meet people. Learn new skills and hone current interests. The students can help produce the "Aventure", a quarterly magazine, participate in debating competitions, broadcast online with Radio Active and volunteer within the community and much more besides.

Project Centric Learning (PCL)

Traditional teaching methods in the Department of Computer Science and Engineering at JAIN (Deemed-to-be University) often focus on the lower levels of Bloom's Taxonomy, such as remembering and understanding, which can be time-intensive and leave little room for higher-order cognitive skills like analyzing, applying, evaluating, and creating. This approach can result in graduates who are not fully prepared for industry demands. To address this gap, the department emphasizes the importance of "Learning by Doing," a pedagogical strategy endorsed by leading academicians and industry experts. Project-based learning is a key component, where students apply classroom knowledge to real-world projects, engaging with higher-order thinking skills. This method not only reinforces foundational knowledge but also cultivates critical problem-solving abilities, creativity, and practical expertise. By integrating hands-on learning experiences, the department ensures that students develop a comprehensive skill set, making them industry-ready and capable of tackling complex challenges in the field of computer science and engineering.

15. LIBRARY

Welcome to the Library of FET, JAIN (Deemed-to-be University), a dynamic hub of knowledge and resources dedicated to fostering academic excellence and research innovation. Our Library is an essential part of the educational experience, providing students, faculty, and researchers with access to a vast array of information in Engineering, Technology, Sciences, and related fields. With a growing collection of print and digital materials, cutting-edge facilities, and a commitment to integrating the latest technological advancements, we strive to support the diverse needs of our academic community. Most of the Library's in-house services are fully computerized through the integrated KOHA 21.05 cloud software, providing access to numerous essential subscribed online and open-access e-resources. Our services are designed to enhance learning, inspire discovery, and facilitate the pursuit of knowledge in an ever-evolving landscape.

DIGITAL RESOURCES

Some of the major resources are:

1. AIAA (American Institute of Aeronautics and Astronautics)

- Number of Journals: 5
- Focus: Aerospace research, technology, and engineering.
- Popular Journals:
    - Journal of Aerospace Information Systems
    - Journal of Aircraft
    - Journal of Guidance, Control, and Dynamics

2. ASCE Library (American Society of Civil Engineers)

- Number of Journals: 42
- Focus: Civil engineering, construction, and environmental engineering.
- Popular Journals:
    - Journal of Structural Engineering
    - Journal of Environmental Engineering

3. ASME Digital Collection (American Society of Mechanical Engineers)

- Number of Journals: 35
- Focus: Mechanical engineering and related fields.
- Popular Journals:
    - Journal of Mechanical Design
    - Journal of Heat Transfer
    - Journal of Manufacturing Science and Engineering

4. EBSCO

- Number of Journals: 16,324
- Focus: A comprehensive range of disciplines, including business, health, education, and more.
- Popular Journals:
    - Harvard Business Review
    - Health Affairs
    - Educational Leadership

5. Emerald Insights

- Number of Journals: 319
- Focus: Management, information science, and engineering.
- Popular Journals:
    - Journal of Business Strategy
    - International Journal of Operations & Production Management
    - Journal of Knowledge Management

6. IEEE Xplore (Institute of Electrical and Electronics Engineers)

- Number of Journals: 381
- Focus: Electrical engineering, electronics, computer science, and related fields.
- Popular Journals:
- IEEE Transactions on Industrial Electronics
- IEEE Transactions on Communications
- IEEE Transactions on Pattern Analysis and Machine Intelligence

7. Capital Online Database

- Details: This database might refer to a specific collection of journals or resources related to finance, economics, or business, often offered by a university or specialized institution.
- Popular Topics: Capital markets, financial analysis, economic trends.

STATISTICS AT A GLANCE

LOCATION – Central Library (2nd & 3rd Floor)

WORKING HOURS

Monday to Friday: 8.00 am. to 8:00 pm.

Saturday: 8.00 am. to 5.30 pm

Sunday: 9:00 am. to 4:00 pm.

Instructions to the Students

1. Users have to keep their belongings in the pigeonhole box kept at the entrance of the Library
   before entering the Library premises.
2. Cell Phones, jerkins, sweaters, eatables, soft drinks, carry bags; and Printed personal books are strictly prohibited inside the Library.
3. **All users should carry an ID card to the Library, Log in and Log out are mandatory through the Smart Login Scanner kept near the entrance**.
4. Users should strictly maintain silence in the Library.
5. Users are not allowed to displace the chairs.
6. Users are encouraged to browse the system Online Public Access Catalogue (OPAC) to know the resources of the Library.
7. Users can seek the help of the Library staff to locate the resources.
8. Users can request any additional resource to the Library through their HOD.
9. Cooperation with the Library staff is highly appreciated for the smooth flow of the Library operation.

10. In the event of loss of the borrower's ID card, the user must immediately inform the librarian in writing. The duplicate ID card will be issued on payment of Rs.400/-. The members will be responsible for any loss arising as a result of misuse of the lost ID card. However, Library will make all possible efforts not to issue any documents against such ID, once loss is reported and a duplicate ID is issued.
11. **User can borrow Three books at a time and be issued for fifteen days**. **Students can renew the books unless the book is reserved by other students.**
12. **Users are requested to return the books on or before the due date stamped on the due date slip. In case students fail to return the books after the due date, they have to pay a fine of Rs. 5/- per day.**
13. If a user loses any document, they must immediately report it in writing to the librarian. The borrower will have to pay overdue charges in addition to the replacement cost of the document till the recovery of the replacement cost/till he/she replaces the sound copy. In addition to the replacement cost/sound document, he has to pay 10% of the cost of the book as a processing fee. The replacement cost will be three times the cost of the original document. The user has to replace the lost document in lieu of the lost document & and do so within 30 days from the due date.
14. In the case of Journals, a document belonging to a multivolume set is lost, and then the borrower will have to pay the replacement cost of the entire set or volume, where individual volumes or issues are not available.
15. Cost once recovered will not be refunded under any circumstances.
16. Writing, marking, tracing on the Library material, tearing pages from the Library document, or any other action resulting in damaging Library material or loss to the Library is strictly forbidden.
17. Reference books can be borrowed overnight only.
18. Users are requested to Return/Renewal the document on time for the smooth flow of Library operation.
19. Users are informed to leave the books/journals/magazines on the table only.
20. Users are requested to charge their laptops only at charging points near the digital section.
21. **Photography and watching videos and movies on mobile and laptop are strictly prohibited inside the Library.**

22. Users must abide by the rules of the LIBRARY

COURSE READING (CR) MATERIALS

All Books recommended by the faculty members for the courses taught by them during a semester are procured on a priority basis and organized separately under Course Reading (CR) and Short Lone (SL). Books placed under CR are meant for use within the Library, and SL is issued for 15 Days.

LIBRARY MEMBERSHIP

The faculty members, staff & students of the institute are required to enroll as members of the Library (upon joining the institute) by filling in the membership form available at the Library circulation desk (along with a passport-size photograph). This entitles the use of resources & services offered for the purpose of academic of academic and research work. The borrowing privileges for each category of members are given below

BORROWING PRIVILEGES

Faculty	05 Books	30 Days
	03 References Books	07 Days
	02 loose issues of a journals	05 Days
Research Scholars	05 Books	30 Days

	01 loose of a journal	05 Days
	02 Fiction Books	07 Days
PG Students	03 Books	30 Days
	01 loose issue of a Journal	05 Days
UG Students	03 Books	15 Days
	02 Fiction Books	07 Days
Administrative, Project Staff & Trainees	02 Books	15 Days
	02 loose issues of a journal	05 Days
	02 Fiction Books	07 Days

In addition, the Library has recently introduced membership open to academic institutions, industry & corporate organizations, individuals (Research, Scholar & Faculty associated with academic institutions), Alumni, and family members.

Responsibilities Of the Department of FET Library

- The Library issues barcoded ID cards for students and faculty members.
- The Library provides the following services to support the teaching and research work.
- Circulation of Reading Materials
- OPAC (Online Public Access Catalogue)
- Reference and Information Services
- Document Delivery Service (DDS)
- Inter Library Lone(ILL)
- New Arrivals of Books
- Photocopy Service
- Ask A Librarian
- Alert Service and Literature Search & Other Services

NEW SERVICES

- Plagiarism Checking: The Library offers plagiarism checking services using the Turnitin Software tool.

RESOURCE SHARING

Library signed **MoU** with **INFLIBNET-Shodhganga** and uploaded Ph.D thesis from our University. Developing Library Network (DELNET) New Delhi, British Library, IIMB & IISc Library. The Library has a cooperative arrangement with most other Libraries and Library networks in the country. Through this arrangement, Inter-Library Loan and Document Delivery Services offered to faculty members, research scholars, and students

IT RESOURCES

A good number of computers are available for accessing the Library resources including an online catalogue of holdings and e-resources. The Library has a Wi-Fi facility for connecting to the internet and accessing institute resources. Photocopies machines & printers are also available for faculty and students.

ACCESS TO LIBRARY HOLDINGS & ONLINE RESOURCES

Library operations are fully computerized and an online catalog for the entire holdings of books is accessible off campus.

http://106.51.79.124:6060/

NPTEL video lectures**: 192.168.120.140/Local Guru/**

Subscribed/licensed e-resources are also accessible on the Library website.

http://jainuniversity.ac.in/Library

ASK A LIBRARY

If you have any questions with regard to the Library and its services, please feel to contact us person, feel to contact us in person, over the telephone or by email. Library staff will be very happy to assist in marking the best use of resources to support your academic and research work

16.CO-CURRICULAR / EXTRA CURRICULAR ACTIVITIES

The Faculty of Engineering & Technology, students come from diverse backgrounds worldwide, bringing various perspectives and experiences. They engage in various extracurricular and co-curricular activities on and off campus, fostering a vibrant and dynamic environment.

On campus, students participate in numerous activities organized by the cultural club, which helps them develop and showcase their skills and interests. These activities contribute to their personal growth in multiple dimensions. At FET, students not only become skilled engineers but also evolve into well-rounded individuals through their involvement in cultural club activities.

- The cultural club at FET encompasses a variety of specialized clubs catering to diverse interests.
- The Theatre Club offers opportunities in drama and mime, allowing students to express themselves through acting and performance.
- The Dance Club supports both solo and group performances, showcasing a range of dance styles.
- The Music Club supports music enthusiasts, which includes solo and group singing as well as instrumental performances.
- The Photography Club encourages students to capture moments and develop their photographic skills.
- Fashion enthusiasts can participate in the Fashion Show Club,
- The Fine Arts Club offers activities in painting, sketching, collage, and rangoli.
- For those interested in intellectual pursuits, The Literature Club organizes quizzes and debates, fostering a love for reading and critical thinking.
- The Art and Design Team at FET excels in both digital design and traditional art and craft, allowing students to explore their creativity through various mediums. This team fosters innovation and artistic expression, blending technology with classic artistic techniques.
- Through these clubs, students can explore and enhance their talents, contributing to their overall development.

KEY EVENTS AT JU-FET

- The cultural club at FET organizes a range of major events that enrich the student experience and foster community spirit.
- The highlight of the cultural club's calendar is INFINITY, a techno intercollegiate fest. This mega event attracts participants across the country, offering a platform for students to showcase their technical skills, creativity, and innovation through a series of competitions and activities.
- One of the key events is Deeksharambh, a freshers' day celebration specifically designed for first-year UG and PG students. This event aims to welcome new students, helping them integrate into the university environment and begin their academic journey on a positive note.
- The cultural club also celebrates Kannada Rajyotsava, a festival honoring the formation of the state of Karnataka. This celebration, primarily involving hostel students, highlights the rich cultural heritage of Karnataka and promotes cultural awareness and pride among students.
- Through these diverse events, the cultural club at JU-FET not only enhances the student's educational experience but also promotes a sense of community, cultural appreciation, and personal growth.

MAGZINES AND NEWSLETTERS

- Synticium Magazine: Celebrating Excellence @ FET
- Synticium is the annual magazine of the Faculty of Engineering & Technology, capturing the essence of the institution's vibrant academic and extracurricular life. This comprehensive publication serves as a chronicle of the major programs, activities, and achievements of both students and staff throughout the academic year.
- Each edition of Synticium highlights the diverse array of events and initiatives that define the FET experience. From groundbreaking research projects and innovative technical workshops to cultural festivals and sports achievements, the magazine provides an in-depth look at the dynamic environment of the school.
- News letter

- Kalakrithi is a bi-annual newsletter released by the Cultural Club and NSS wing of Faculty of Engineering & Technology. This publication serves as a vibrant chronicle of the key highlights and achievements of both the Cultural Club and the NSS wing. Each issue of Kalakrithi captures the essence of the dynamic activities, from cultural festivals and artistic showcases to community service initiatives and awareness campaigns. Through engaging articles, event summaries, and vivid photographs, Kalakrithi not only celebrates the creativity and social commitment of FET students but also fosters a sense of pride and community spirit. It stands as a testament to the diverse talents and dedication of the FET family, inspiring continued participation and excellence in both cultural and social endeavors.

SPORTS FORUM

- The Sports Forum at the Faculty of Engineering & Technology is a vibrant hub of athletic activity, engaging over 2000+ students in a wide range of sports for both recreation and professional development. This forum plays a pivotal role in nurturing the physical and mental well-being of students while also fostering a sense of teamwork and discipline.

- The forum boasts numerous sports clubs, including basketball, cricket, volleyball, kabaddi, badminton, tennis, and football, among others. These clubs provide structured opportunities for students to train, compete, and excel in their chosen sports. Many FET students have distinguished themselves by representing the college, university, state, and even the country in various competitions, showcasing their exceptional talent and dedication.
- To ensure the continuous discovery and development of athletic talent, the Department of Physical Education conducts annual trials. These trials are designed to identify and nurture promising athletes, providing them with the support and resources needed to reach their full potential. The trials are a critical component of the sports program, helping to build strong and competitive teams that uphold FET's proud tradition of sporting excellence.

- Through the Sports Forum, FET not only promotes a healthy and active lifestyle among its students but also creates a dynamic environment where they can achieve their sporting aspirations and build lifelong skills.

NATIONAL SERVICE SCHEME (NSS)

The NSS (National Service Scheme) wing at the Faculty of Engineering & Technology, is a cornerstone of the institution's commitment to community service and social responsibility. Through the NSS wing, students engage in a variety of activities that aim to make a positive impact on society while fostering personal growth and civic responsibility.

Key activities organized by the NSS wing include blood donation camps, health camps, and awareness campaigns on important social issues. The wing also hosts events such as Yoga Day and Fit India initiatives, promoting health and wellness among students and the broader community. Celebrations like Children's Day are marked with special events and activities, while environmental consciousness is fostered through plantation drives.

One of the standout initiatives of the NSS wing at FET is the project focused on recreating and revitalizing government schools. This involves painting school buildings and providing training and educational support to students in adopted villages. By enhancing the learning environment and offering additional resources, the NSS wing helps to improve educational outcomes and inspire young minds.

Additionally, the NSS wing is actively involved in creating awareness in nearby villages. Through various outreach programs, students educate community members on topics such as health, hygiene, and sustainable practices, aiming to uplift and empower these communities.

The NSS wing at JU-FET is not only a platform for students to serve society but also a means for them to develop leadership skills, empathy, and a sense of social responsibility. Through their participation in these meaningful activities, students contribute to the betterment of society while growing as conscientious and engaged citizens.

NATIONAL CADET CORPS (NCC)

National Cadet Corps is a leadership training activity for students that teaches them responsibility and resourcefulness. It also helps students to develop smart thinking, quick reasoning and reaction skills and handle various situations in an adept manner. Students, who are physically fit, are encouraged to join the NCC (National Cadet Corps).

17. CALENDAR OF EVENTS OF THE UNIVERSITY

School of Computer Science and Engineering

Calendar of Events

(Session: January 2024 – May 2024 2023-24 EVEN)

Semester: II, IV, VI and VIII Course: UG

Week	Month	Day						Events/Activities
		Mon	Tue	Wed	Thu	Fri	Sat	
1	Jan 2024			**3**	4	5	6	**3 - Commencement of VI & VIII Sem Classes - Orientation**

20.NOTE TO PARENTS

- Your first concern as a parent should be to see that your ward attends the classes regularly. Parents who permit their ward to be absent from classes unnecessarily handicap their ward's opportunity to succeed in studies.
- You can contribute a great deal to your ward's success in the college by encouraging home study. See that your ward devotes at least two hours every day for his/ her studies at home.
- You are expected to co-operate in the work of the college by enforcing regularity and discipline as well as by evincing interest in your child's progress. You must also extend your fullest encouragement to your son/daughter so as to enable them to participate in co-curricular and extra-curricular activities.
- You are requested to go through the Attendance and Performance Report to ensure your ward's progress in studies & attendance on a regular basis.
- When you are requested to meet the Head or the class teacher, it should be done immediately so that the feedback of the ward's slow progress in the class can be directly communicated.
- Any legitimate complaint can be made at the earliest to the Head of the Department.
- Withdrawal of your ward from class for mere social functions is not recommended because it retards his/her progress in college and minimizes his/her respect for regular hard work & attendance.
- Encourage your ward to cultivate habits of neatness, self-help and systematic work.
- Ensure that your ward does not bring any costly gadgets to college. College will not be responsible for the loss.
- Please note that use of mobiles is strictly prohibited in classrooms. If it is confiscated for violating this rule it will be returned only after seven days
- Failure to pay the fees on time will be viewed seriously.
- Parents are requested to notify in writing in case of any change of address, E-mail IDs, Telephone numbers to the college office.
- Parents will get an official letter if the college is taking the students out of station for projects and industrial visits. The college does not approve of any private trips or tours without the consent of the parents.

- Parents' visit to college during class hours is not encouraged. Parents may visit the college after the sessions conclude for the day.
- Change in course is not allowed and neither the fee will be refunded/transferred to another course

21.NOTE TO STUDENTS

- Timings (online/ offline) – 08.45 am to 3.45 pm with a break from 1.10 pm to 2.00 pm
- It is compulsory to attend the college from the very first day and the rules and regulations of the Institution must be followed.
- Learning Management System (LMS) should be regularly checked by the students for syllabus, modules, assignments, case studies, notes and other updates.
- It is mandatory to submit the assignments before the deadline.
- Guest lectures on subject related topics will be arranged by the college on a regular basis; students are expected to dress in formals to attend these lectures/training/ workshops.
- A student maybe required to take part in co-curricular and extra-curricular activities. When required to do so, participation will be deemed compulsory by the college authorities.
- For participation in competitions, fests and extra-curricular activities, prior permission from the HOD / Director must be taken.
- Regarding Internship given by Corporate to the students, the students are required to follow the specified rules and regulations and maintain a work diary for Internship.
- Medical Certificates should be submitted to the HOD in person, after obtaining Class Teacher's signature, within one day of reporting back to the college.
- Students must carry their College ID Card every day. Loss of ID card should be reported to the admin office immediately. A new ID card will be issued only after the legal procedures are completed (a legal complaint or an FIR).

Attendance:

- It is compulsory for students to maintain a minimum of **75%** attendance in every subject, otherwise they are not eligible to take up the end semester University examination
- Usage of Mobile Phones is strictly prohibited in the classrooms
- **Dress Code:** Dress Code reflects discipline and decorum of a student. At JAIN (Deemed-to-be University), a dress code is implemented in order to achieve the same. A business formal dress code enhances one's professional and personal image. The formal dress should be crisp, neat, pressed and must project a professional image of you. Any violation of the dress code, the **STUDENT** will **NOT** be **PERMITTED** to attend the classes.

- Boys are not allowed to wear Bermudas / shorts, torn jeans and ear- studs in the college, and they should keep their hair short and trimmed.
- Girls should not wear outfits which are transparent, short, sleeveless and three/fourth pants.

Disciplinary Measures

- Writing on the walls, furniture or damaging any college property will not be tolerated by the management. An individual found indulging in such activities will be severely penalized.
- Students are informed to strictly use the steps/stairs and lifts allocated to them
- Chewing gum during the class is a serious breach of discipline.
- Students are strictly prohibited from smoking in and around the college premises.
- Students are not allowed to leave the college premises during regular college hours.
- Irregular attendance, habitual idleness, neglect of assignment, disobedience and disrespect towards members of the college staff or bad moral influence, justify dismissal.
- Birthday celebrations at the college premises are strictly not allowed.
